

**Don't buy
into**

**the
Israeli
Occupation**

Please ask your local supermarkets not to use suppliers that profit from Israel's illegal occupation, settlements and the wall.

By stocking goods from these companies, supermarkets are not only helping to maintain the financial viability of the occupation, but are also lending them legitimacy which goes against any ethical trade principles.

The sale and purchase of goods from Israeli agricultural companies, such as Mehadrin and Hadiklaim, finance and reward the on-going illegal Israeli exploitation and colonisation of Palestinian land and further undermine the chances for a just peace based on international law and respect for universal human rights.

Please fill in your details opposite and hand in this leaflet at your local supermarket.

Dear manager,

As a customer, I am calling on you to stop using suppliers that profit from Israel's illegal occupation, settlements and wall. By stocking goods from these companies, supermarkets are not only helping to maintain the financial viability of the occupation, but are also lending them legitimacy which goes against any ethical trade principles.

I urge you to refuse to stock products from companies that are complicit in the occupation.

Signed.....
