The Outlook for Palestinians since Election of New Israeli Government

Speaker: H. E. Dr Husam Zomlot

Palestinian Ambassador to the United Kingdom

Israel has just elected an extreme far-right Government led by Netanyahu and includes Ben-Gvir who believes in the expulsion of all Palestinians from Israel and the West Bank. Violence and murder, including children against Palestinians in East Jerusalem and the West Bank has already intensified and the Ethnic Cleansing in Masafer Yatta continues.

We are pleased to have the Palestinian Ambassador come to Luton to update us on the current situation and what next for the Palestinians. Dr Husam Zomlot was previously Strategic Affairs Advisor to the Palestinian president and Ambassador to the United

States (Head of the PLO General Delegation to the United States). Dr Zomlot's previous official roles include serving as ambassador-at-large for the Palestinian Presidency, Director of the Fatah Foreign Relations Commission and First Counsellor at the Palestinian Mission to the United Kingdom.
